

RibbStyle

Complete climate control

Moisture and vapor resistant coatings

Coatings to protect and preserve

Smart investment

Do you also want to get the most out of your harvest? Invest smartly. Use CorrFill.

There is complete climate control. The high temperature, humidity and vapor formation do not affect your construction.

You increase the lifespan of the spaces. The coating prevents cracks and rust.

Strict hygiene requirements are no problem, you can clean the rooms with a high-pressure cleaner.

The advantages:

- 1 You minimize the chance of loss. Infections and diseases are reduced.
- 2 If the coating is sufficiently and permanently elastic, the expansion joints, working cracks and seams are permanently sealed.
- 3 White walls give excellent light reflection, this contributes to a better work performance.
- 4 White vapor-tight coating is also important for hygiene, the walls are easy to clean.
- 5 Vapor-tight walls and ceilings reduce vapor transport, so that the insulation value remains the same. This is very important for energy costs.

Excellent chemical, mechanical and thermal resistance

Durable and wear-resistant

High solid content

Extremely vapor-tight

Solvent-free

400% elastic

Products from our CorrFill range

CorrFill Primer BN

CorrFill Primer PA

CorrFill Fleece

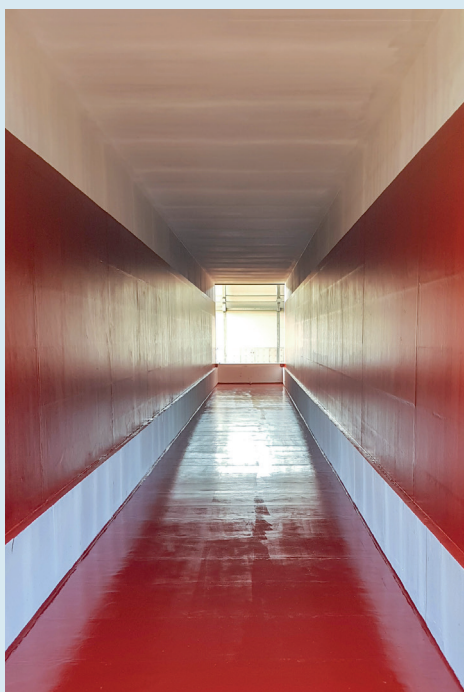

CorrFill Limbercoat

Prevent damage

If there are holes, cracks or damaged walls, there is a good chance that this will have an effect on the quality of your compost tunnel or cultivation cell. This can lead to bacteria, rust or moisture damage. In addition, moisture is attractive to insects, which can transmit diseases. Damages and insects result in loss of cultivation.

Completed successful project

Elf Farm Supplies has been working with RibbStyle for more than 15 years. A number of projects were realized, both new construction and renovation works. We appreciate the collaboration and "no problem" attitude of the RibbStyle team, along with products and treatment systems that perform well in our composting facility.

Discover our strength

RibbStyle is an international manufacturer and supplier of high-quality coatings for a wide range of industries. Every customer is unique to us. Every project is carefully prepared and supervised by us.

Our strength is reflected in:

- Knowledge
- Quality
- Service
- Local presence

Would you like to know what the benefits of our coatings are for your company? Contact us and ask about the possibilities.

Knowledge

We have years of knowledge and experience. This is reflected in our advice. Because we are involved and have short lines of communication with the clients, we ensure an accurate approach.

Quality

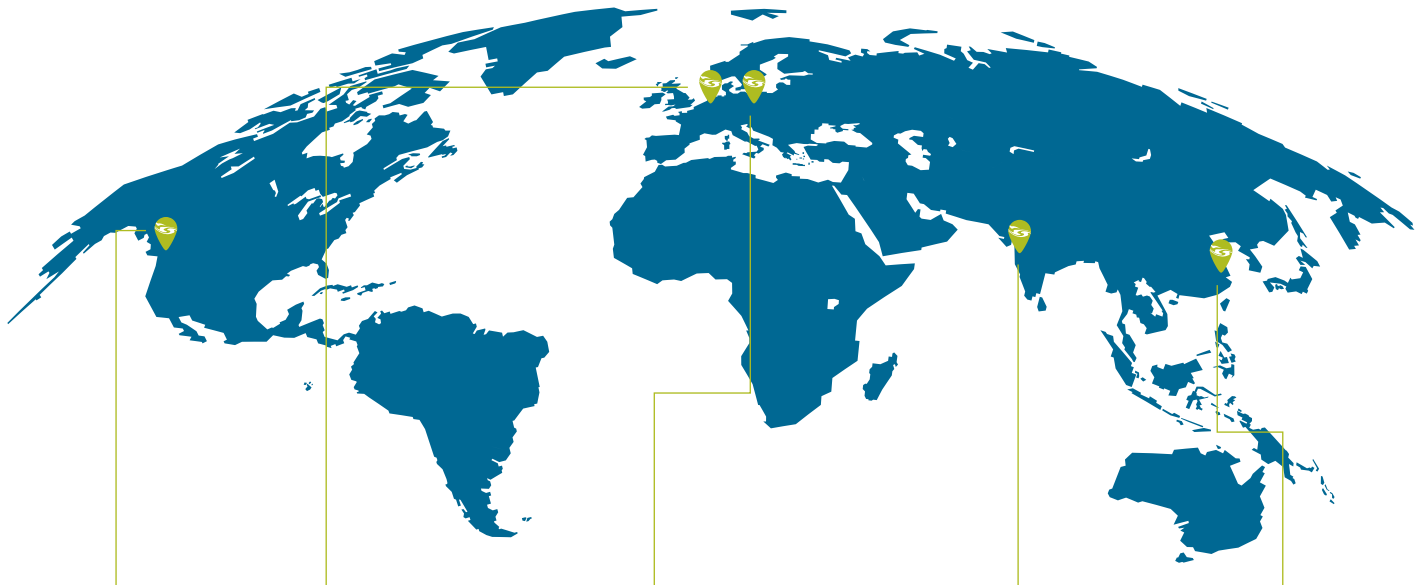

We use a unique technique with multiple layers. The combination of these layers into a system provides our customers with a long-term solution.

Service

Every project is tailor-made with direct service during and after applying and delivering our coatings. We pay extensive attention to aftercare. If there are any issues, we will look for a suitable solution.

Local

We are internationally oriented with a focus on the local market. RibbStyle has multiple branches all over the world.
